Biography – Urs E. Gattiker

Professor Dr. Urs E. Gattiker is founder and chief technology officer of

- CyTRAP Labs – making firms more secure & profitable also providing CyTRAP Labs' zero-day vulnerability list and WinCurity – protecting your PC/BlackBerry
- CASEScontact.org – an information security portal and early warning system for SMEs and home-users – providing hacking alerts and security guides

Dr. Gattiker was professor of computing and innovation management at the Stanford Center for Organization Research - Stanford University, Melbourne Business School, School of Engineering – Aalborg University (Denmark), as well as ISNM – Univ. of Luebeck (Germany).

He has been elected, amongst others, to serve on the following international committees:

- Advisory Board – European Union - EU Security & Dependability Task Force (Vice Chair)
- Expert Advisory Group – European Union - European Network and Information Security Agency (ENISA) (member)
- IS Audit and Control Association (ISACA) - IT Governance Institute Editorial Committee (member)
- EU IPv6 Task Force (member)

and is board member and advisor of international groups and companies.

Dr. Gattiker received his Ph.D. from Claremont Graduate University. He is the editor and publisher of the weekly CyTRAP Labs' Information Security this Week that is considered an insider tip amongst Europe's IT security experts and EU regulators. He has written or co-authored several books including but not limited to *Viruses Revealed* (translated into 20 languages), the *Information Security Dictionary* and is currently finishing another book about information security and threat management. He is fluent in German, English, Danish and French.
