Biography – Matthias Nöster

Matthias Nöster is a senior analyst with CyTRAP Labs GmbH, which provides corporate governance and social media services to organizations worldwide.

Matthias has been working as a management consultant for the last six years. He specializes in information society issues and information technology start-ups. Specifically, he strengthens our work in the areas of:

- corporate strategy,
- R&D and innovation management,
- telecoms & technology,
- regulatory issues in Internet technology markets.

Matthias was a team member in several European projects, such as ASP-Net. He has also worked and liaised with major industry associations including but not limited to EICTA and Comp TIA.

He did his undergraduate and graduate studies in economics and finance at the University of Vienna. Matthias also holds an MBA certificate from the United Business Institutes in Brussels.

Besides his native German, he is fluent in English and French.
